The stoum produced only marble-sized hail, at largest; but the hail covered the ground to nearly 6 inches deep and was accompanied by heavy rain. Heavy damage was reported to crops in the hail area. Only minor damage was reported to property in the area. public reported a small, short-lived tornado 6 miles northwest of the community of South Plains. The tomado short narrow 0 0 0 0 Lubbock, Lubbock 12:10p Tornado The public reported a tornado just west-northwest of Reese AFB, near Lubbook, National Weather Service radar confirmed the possibility of the tornado. The tornado was small and caused no . | 0 | 0 0 0 0 2:140 Hockley County 28 Funnel Cloud 20 A severe thunderstoom that developed in southeastern Ochran Courty, just before 2 p.m. moved northeastward into Hockley Courty. At 2/14 p.m., it produced thin funnel clouds some 3 miles southwest of sevelland. Culy one of the funnels later touched the ground. Its connection was very brief and occurred in an open field; causing no damage. Small hail was beyorted in the storm. A lightning but from the storm shortly after the funnel and tourned disappeared struck and ignihed two oil storage tanks. 24 12:59p .5 30 Ì 0 0 4 6 Tornado, Hailstorm Lubbock, Hale A thunderstorm, just to the west of Reese AFB, began producing hail up to golfball size just west of Reese. At 1:04 p.m. an amateur radio spotter reported a small tornado coming from the rear of the storm as it was approaching the western side of the City of Lubbook. Counties The tornado was also reported by the public. It was short-lived and caused no known damage! The storm continued slowly southeastward producing golfball-sized hail near Woodrow (just south of Lubbock) shortly after 2 p.m. Wost of the hail was reported to be powering the ground up to 2 inches deep in extreme southern Lubbock County along US 87. Up to 1k inches of rain also fell in the storm. The storm continued into Crosby County with golfball-sized hail reported near Lorenzo ese AFB, Lubbock 28 0 0 0 0 Hailstorm County Golfball-sized hail was produced by a strong thunderstorm 1 mile east of Reese AFB. The hail was accompanied by heavy rain, but was confined to a small horizontal extent and caused no known damage. 0 Paducah, Oottle 0 0 County The storm system destroyed 60,000 to 80,000 acres of cotton in Lubrock and Hale Counties with the damage boncentrated from near Abeanathy to Retersburg, in Hale County, on the north side to a line from near Reses APP to near Idalou, in Lubrock County, on the south side. Property damage was minimal. A finnel cloud was observed 10 miles north of Padiucah by a private pilot No confirmation was available from the ground. i 3:15p Hailston Brownfield, Terry 28 0 0 0 0 County A brief occurrence of golfball-sized hail reported by the Civil Defense Office No in Brownfield, was 4:30p Paducah, Cottle County 24 No idamage occurred. The chunderstorm complex moved into western Oottle County just before 4 p.m. producing 2 to 4 inch general rains over the county feat to marble-sized hail accombanied the storm. The runoff from the storms cased Block Creek to overflow, with water 2 to 3 feet deep over FM 2278. Water and max was also reported covering a portion of US 33, some 5 miles south of Paducah. Lightning struck the Civil Defense Thwer furing the storm and caused minor damage. Minor damage was also reported to wheat crops in the 0 0 1 ? 7 Dickens, Dickens 28 4:20p Hailstonn A strong thurserstorm that developed rapidly in northern Dickens County produced golfball-sized bail and high winds 10 miles east of Dickens. Damage information was not available. Childress, Childress 28 5:04p 0 0 0 0 Windstorm Strong winds were reported by personnel at the childrens Airport from a cluster of thurderstoms located to the southwest of the terminal. The highest gust recorded was 14 mph. Brief heavy rain was also reported in the storm. ounty 4:01p small narrow 0 0 0 trormado Steagall, Bailey County A small tornaho was sighted by open field. The tornado cause the Steagall Fire Department in an 0 0 Aspermont, Stonewall County A stort-lived funnel was reported by the public IIO miles northwest of Aspermont. The funnel was moving toward the east-southeast at 15 mb. Strong straight-line winds from the accompanying thunderstown were resorted by the Sheriffs Department in the City of Aspermont just prior to the signting of the furnel. No damage occurred. 0 0 5 Lightning 26 3:35p Childress, Childress County Lightning struck a name in Childress during an intense storm. No injuries occurred, but extensive damage was done to the home. 0 0 0 0 Hailstorm Morse, Hansford County 28 Midland, Ector 0 The public reported golfball-sized hail in a severe thunderstorm at Morse. The hail did not last long and was mostly pea to markle size. No damage was indicated. Counties 10:50p A funnel clour was observed by the Glessa Fire Department 10 miles west southwest of Glessa in a strong thunderstoom. The funnel disappeared quickly/back into the paperts storm. As the storm continued moving toward the east, it produced spotty dime-sized hail 10 miles southeast of Midland, as reported by an amateur White Deer, Carson 5:58p 0 Hailston County Sporty golfball-sized haillwas reported at White Deer in a severe derstorm. | Damades were not known. No further reports of severe weather we ling the stoom. No damage was indicated. 7:00p 7:20p 8:03p radio spotter. Briscoe, Motley, Cottle Counties n 0 Tomado received regarding Tornado Funnel Cloud Funnel Cloud Grandfalls, Ward 0 0 0 Funnel Cloud 8:16 Tornado a funnel just north 9:40p .5 20 ō ō ō 0 The severe thunderstorm that produced four known tornadoes and two fuuriel clouds developed just notth of Clovis, New Mexico, just before 2 p.m. I the first indication of severe weather was received at 1 p.m. when the Civil Defense at Quitagle reported a small tornado in open country preceeded by golfball-sized hail. The storm turned just beyond Quitagle, moving now toward the southeast at 20 mph. At 7:20 p.m. a second tornado was reported by private airdraft in the storm. It dispried quickly toward the ground, touched down for nearly a mile, then disappeared. As the pilot continued to observe the storm, a large will cloud appeared uncirneath its rear base. At 8:03 p.m. a small funnel developed from the wall cloud at 8:16 p.m. just north of whiteflat. It was also short-lived. At 8:54 p.m. the public reported a tornado 8 miles north of Matador from the same storm. No further information was breeding legarding the tornado. I the last report of severe weather care from the Padubah Fire Department as the storm moved across Cottle County. A bornado was sighted in a distant field 8 miles north of Romand amage. Shortly afterward, the storm dissipated. of Grandfalls It receded quickly back into the storm. 0 0 12:39a 0 0 Wink, Winkler County 29 Windstorm A brief gust to 60 mph was recorded at the Flight Service Station at Wink. No damage occurred. 29 8:10a 0 0 0 0 Texon, Reagan County A motorist reported a brief shower of hail 8 a.m. Most of the hail was pea to marble stores as large as polfballs. Texon shortly after with a few of the size 29 0 0 0 0 Hailston Bronte, Coke County Marrie- to golfball sized hail was reported in a brief storm by the public at Bronte. No damage was reported. Wink, Winkler County 0 0 0 Funnel Clouds (4) The public reported a cluster of 4 small numnel clouds 5 miles north of Wink! The funnels lasted approximately 2 minutes, then disappeared. They were moving toward the bast at 25 mph.

but caused dissipated.
